I absolutely can. Would this be able to happen first thing in the morning or do you need it tonight? I'll be away from my computer for the next few hours, just let me know when you need and I'll get it done and sent over.

Thanks!

Thanks. Can you provide a quick summary document that is a bit more official? Nothing fancy. Document as draft. Weston logo...date, HTC Area 7, range of what you found with the background reading. The state has requested this info and my attorney wants to see prior to me sending.

Thanks

Hi Eric,

I just checked my notes in my logbook copy, and the entire garage was uniformly scanned with readings ranging from 62 - 78.5 Kc/m. There was no particular area that was necessarily "hotter" than the other, but it did fall off against walls and off of the garage slab very quickly.

Hi Patrick:

Do you have the information from the gamma survey of the garage in HTC Area7 residence? The one that was elevated.

Thanks
